WHAT IS THREAD LIFT?

Thread Lift is a non-surgical procedure designed to lift, tighten and rejuvenate sagging skin using dissolvable threads. These threads stimulate natural collagen production, improve skin elasticity and redefine facial contours for a more youthful and refreshed look.

It is a safe, effective and minimally invasive solution with natural-looking results.

SA AESTHETICS
A More Beautiful & Confident You..!

HOW IT'S DONE?

During the procedure, fine dissolvable threads are carefully inserted under the skin using a thin needle or cannula. The threads are then gently lifted to reposition sagging tissues and anchored in place. Over time, the threads dissolve naturally while stimulating collagen production, resulting in firmer, smoother and lifted skin.

THE STEPS

01

CONSULTATION

Your concerns are assessed and a personalized treatment plan is created.

02

PREPARATION

The treatment area is cleansed and a local anesthetic is applied for maximum comfort.

03

THREAD INSERTION

Dissolvable threads are inserted under the skin using a fine needle or cannula.

04

LIFT & ADJUST

The threads are gently lifted and positioned to achieve the desired contour.

05

FINAL RESULT

Instant lift with continued collagen boost for natural, long-lasting rejuvenation.

BENEFITS OF THREAD LIFT

- ✓ Non-surgical and minimally invasive
- ✓ Instant lifting and tightening effect
- ✓ Stimulates natural collagen production
- ✓ Improves skin elasticity and texture
- ✓ Redefines facial contours
- ✓ Natural-looking and subtle results
- ✓ Minimal downtime
- ✓ Long-lasting results (12–18 months)
- ✓ Safe and well-tolerated

THREAD LIFT

REDEFINE • LIFT • REJUVENATE

Lift Naturally. Look Beautiful. Feel Confident.

Thread Lift is a non-surgical treatment that lifts, tightens and rejuvenates your skin for a more youthful and refreshed appearance.

A More Beautiful & Confident You..!

WHO'S THE RIGHT CANDIDATE?

Thread Lift is ideal for individuals who:

- Are starting to notice sagging or loose skin
- Want a subtle lift and natural-looking results
- Have mild to moderate skin laxity
- Prefer a non-surgical option with minimal downtime
- Are in good overall health and have realistic expectations

Best results are seen in people with mild to moderate signs of aging.

COMMON TREATMENT AREAS

Thread Lift can be used on various areas to lift, tighten and enhance facial contours.

- Cheeks
- Jawline
- Lower Face
- Neck
- Brow Lift
- Nasolabial Folds

RECOVERY

Thread Lift is a minimally invasive procedure with little downtime. You may experience mild swelling, bruising or tenderness, which usually subsides within a few days.

Most people return to their normal activities within 24–48 hours.

HOW LONG DO RESULTS LAST?

Results from Thread Lift are long-lasting but not permanent.

Results typically last
12 to 18 MONTHS

Longevity depends on factors such as age, skin condition, lifestyle and the type of threads used.

A SUBTLE LIFT A LASTING CONFIDENCE

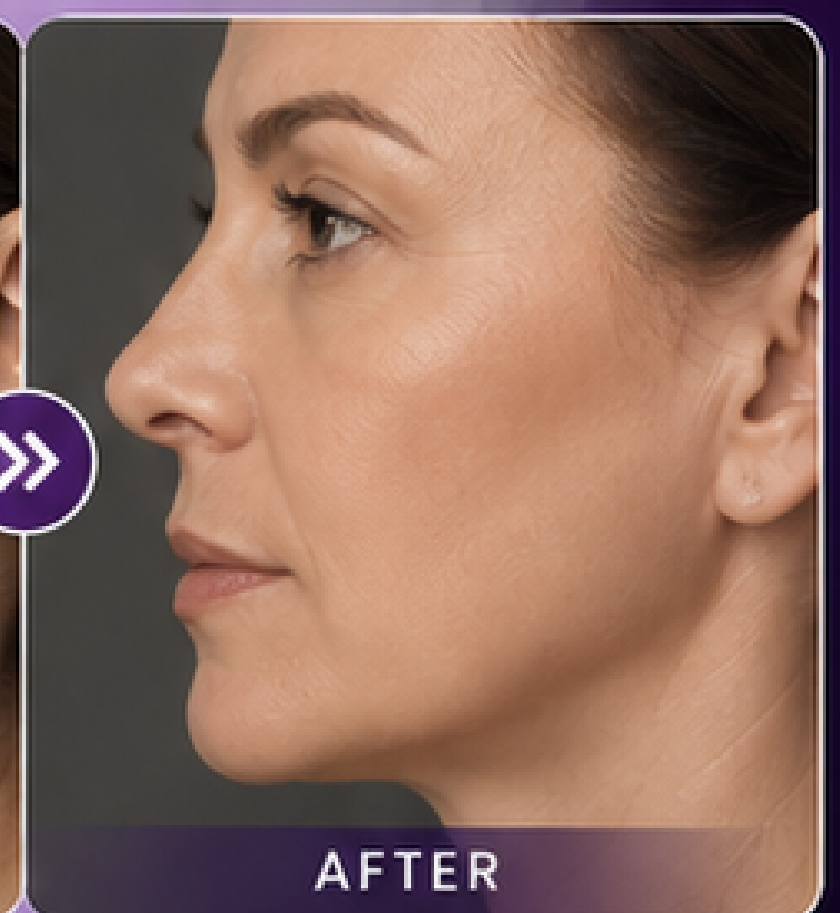

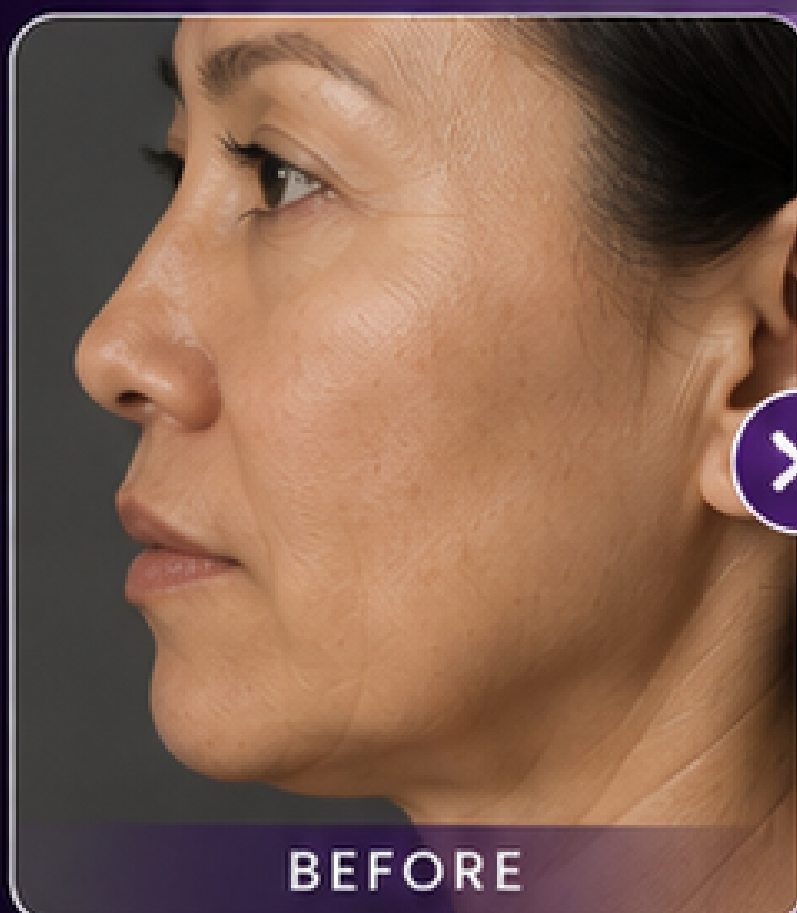

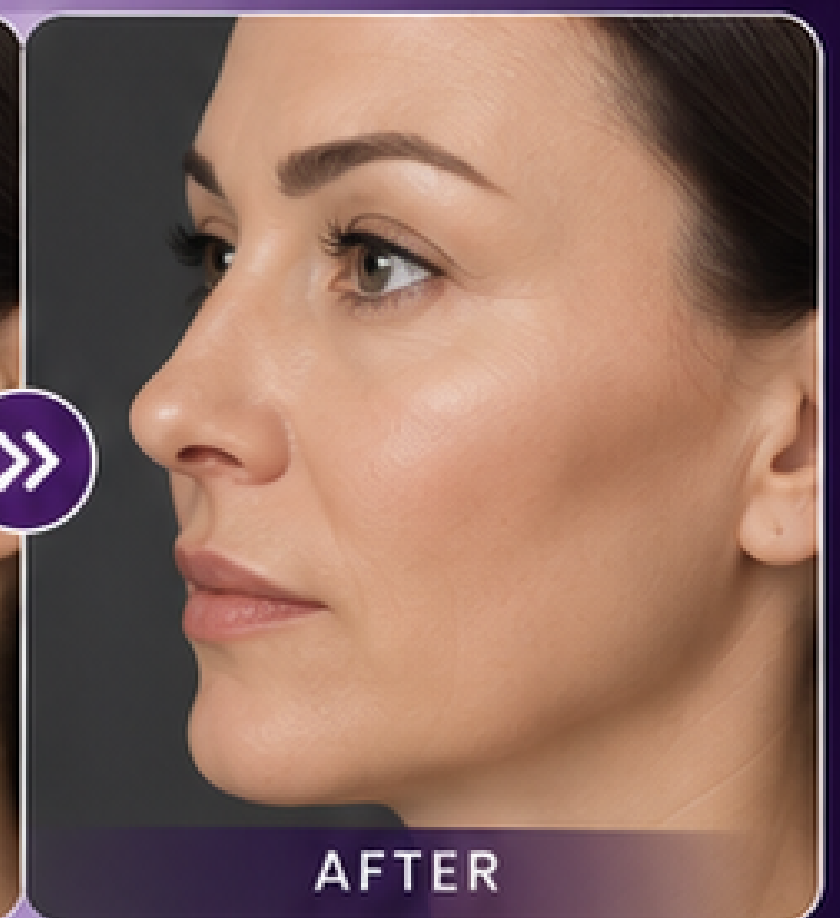

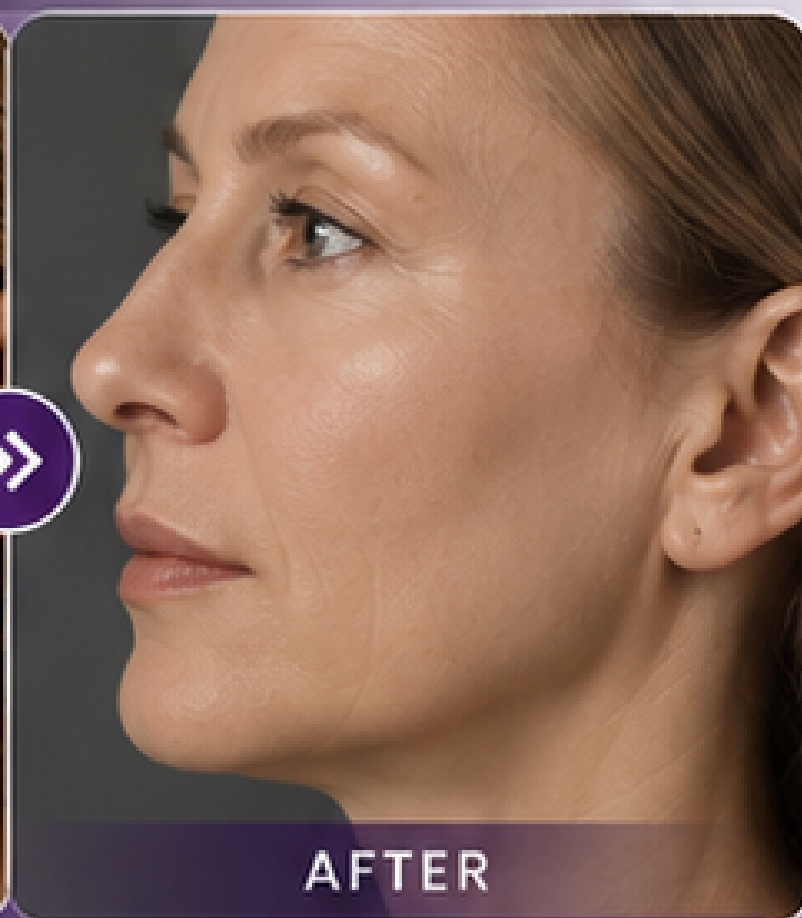

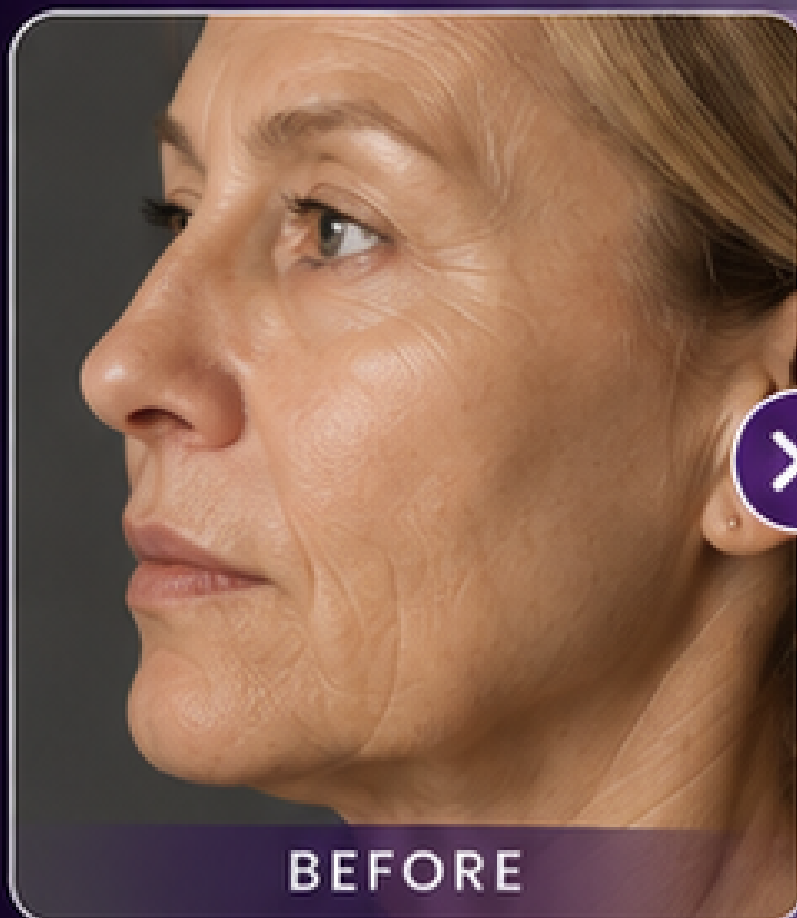

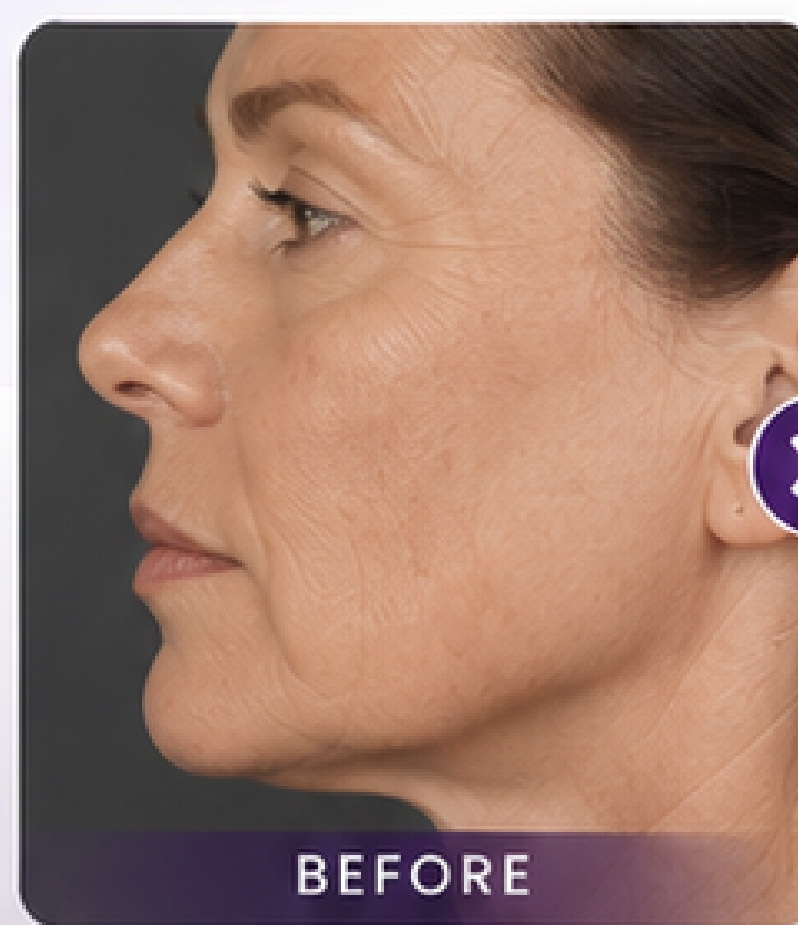

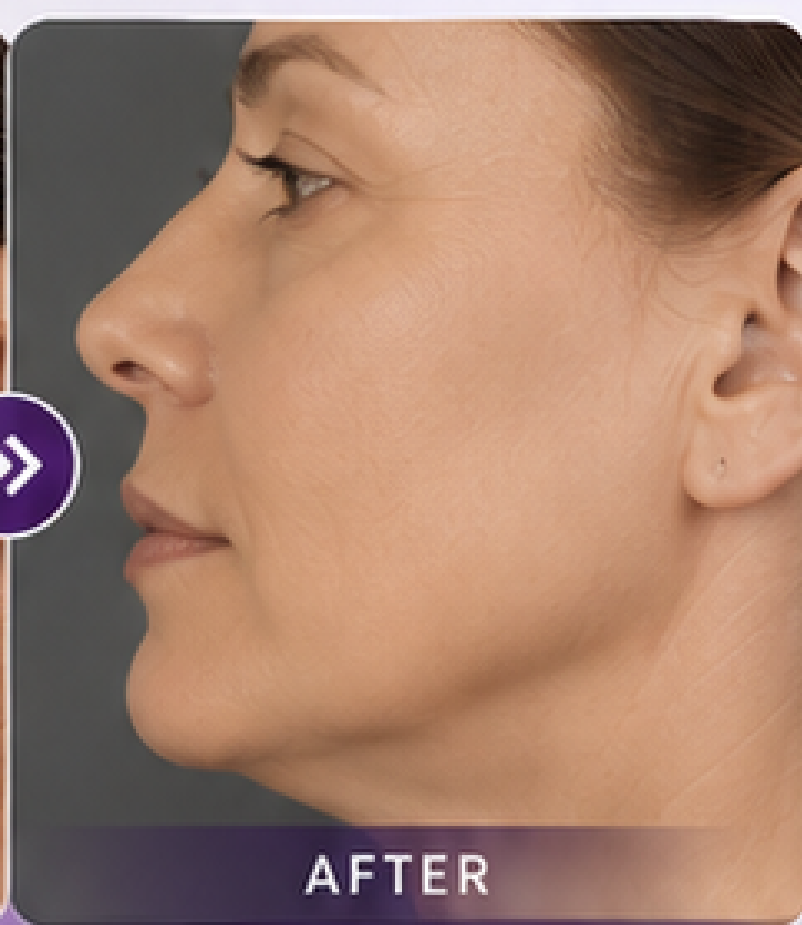

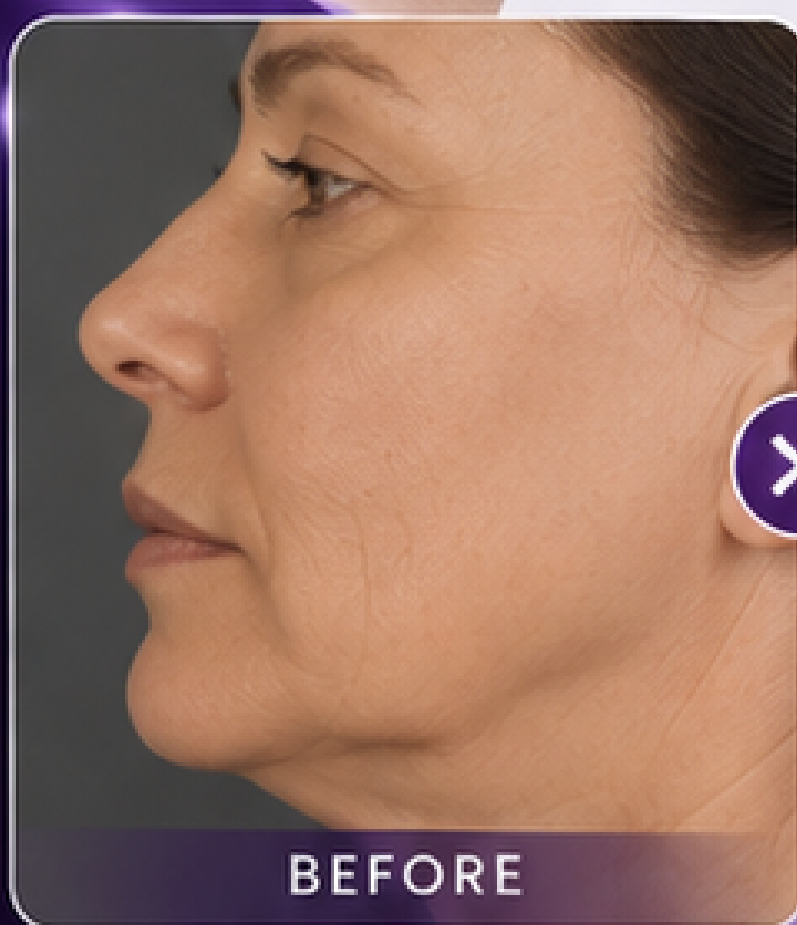

Thread Lift enhances your natural beauty by restoring youthful contours and stimulating collagen from within. Look refreshed, feel confident and glow every day.

SAFE • EFFECTIVE • NATURAL

A non-surgical solution for
a more youthful you.

Thread Lift Result

Visible Lift. Natural-Looking Results.
Experience a firmer, more defined facial contour with a refreshed and rejuvenated appearance.
